

1 CUSHIONING

N5 Contour delivers dual-density cushioning throughout the entire sockliner, plus additional cushioning in the heel, arch and ball of foot, giving you superior comfort where you need it most.

2 BREATHABILITY

N5 Contour is a sigh or relief. Microfiber linings with Agion™ are soft and breathable.

3 BALANCE

N5 Contour innovative contoured insole follows the lines of your foot to allow for maximum contact for balance and stability, and the molded arch support and unique heelcup keep your foot securely in place.

4 FLEXIBILITY

N5 Contour is made with flexible materials inside and out, so they bend and move with you.

5 LIGHTWEIGHT

N5 Contour uses streamlined materials to keep you light on your feet while still providing the premium comfort experience.
